

**Good Morning,**

Firstly I'd like to offer my commiserations over our shock world cup exit, we have been doing everything possible to create something else to talk about... and here it is; a bumper issue proudly featuring Vortice's high quality, low noise air movement solutions from Italy. So put the kettle on and we'll show you a range of products that should be easy to push out the door..

**Starter Kits**

We are proud to present our range of 'Ecco Starter Kits'. These great kits give you all the information you need to set up Ecco product stands in your branch. Ecco starter kits aim to increase your business by providing you with attractively presented stands (for free) with a minimal initial expense. What's more these kits have a large discount on all the products purchased as part of a kit. They also outline new pricing on commodity lines that are sure to improve your store's margin.

**Kits available now:** Cable ties :: Heat shrink :: Screw 'em; screws and fastenings

**Wiha MicroFinish Screwdrivers**

The unique MicroFinish makes these superb drivers non-slip in oily conditions. The steel end cap, hex bolster and heavy duty hex blades make them super tough.

P651455

  - 2 x 100 pozi

**Tradeshows around the Country**

We recently attended Tradeshows at Stewarts in New Plymouth and Ideal in Dunedin. Both shows went really well, the NEW Ecco backdrop and the display boards showcasing working product proved to be a big hit. Thanks to Stewarts and Ideal for putting on great shows.

**Prize Winning Trip to Bathurst**

Ross Taylor and James Smith had a great time on their trip to Bathurst. It was a fantastic day for all Ford supporters with the first Ford trifecta since 1988 - though the Team Kiwi car did sustain some damage. Thanks 3M for such an incredible prize!
