STEINEL®

HL 2010 E Electronic Heat Gun

E010030

High end Heat Gun with all the bells and whistles!

The Steinel HL 2010 E is microprocessor controlled, with temperature control, LCD display and cold air stage. This model is top of the range in terms of versatility, durability and ergonomics. It has an extremely high level of power, formidable airflow and quality features that leave you wanting for nothing. The easy to read LCD display is integrated at the rear where it is always in view.

This heat gun boasts features such as temperature adjustment by push button in 10°C steps, dual air vents, an industrial grade rubber power cord and double overheating protection using a thermostat and thermal fuse. It is ideal for shaping tiles, de soldering components from circuits, welding plastics, drying repair filler, shrinking cable sleeves, soldering pipes and much more.
